# Clause > Cards > Agreement

Sorry I am short on time, but this is a very rough outline of what I think the process will be. I need some samples of what the Common Accord code would look like, if possible working. Then we could start to move the UMKC site to a Common Accord site.

## Template in RAW form [GitHub]

# NDoCH Template

1. Operation of Sensor Network
2. Data Ownership
3. Form of Data
4. Operating Costs
5. Information Origin
6. Permitted Use
7. Storage of City Data

## Convert to CommonAccord

I am not quire sure how this would look.

> Jim could you code this up for the first 4 clauses?

## Clause in RAW form [GitHub]

# Clause ID = 003

# Clause Name = Form of Data

# Clause URL =
https://github.com/UMKC-Law/DataSharingAgreement/blob/master/Drafts/NDoCH-DSA.md
http://www.nyc.gov/html/dot/downloads/pdf/video-partnership-agreement.pdf

# Source =

- UMKC Law School, Summer Class Clause Curation
- NYC DoT Agreement

# CommonAccord Template Markup: 3.sec=

# Notes = City can change form of the signals

# Content = {The_City} and the User each agree that User shall have access to the signals from the sensors in a form which is accessible and can be utilized by User. {The_City} specifically reserves the right to make changes in the form and accessibility of said information as it sees fit without advance notice to User; provided that {the_City} will use best efforts to provide User with as much prior notice as is practicable prior to any discontinuation of access to the sensor data.

## Convert to CommonAccord

3.sec={The_City} and the User each agree that User shall have access to the signals from the sensors in a form which is accessible and can be utilized by User. {The_City} specifically reserves the right to make changes in the form and accessibility of said information as it sees fit without advance notice to User; provided that {the_City} will use best efforts to provide User with as much prior notice as is practicable prior to any discontinuation of access to the sensor data.

> Jim Is the correct? What would the file realy look like and what would you name it?

## CommonAccord Render

https://raw.githubusercontent.com/UMKC-Law/DataSharingAgreement/master/Drafts/NDoCH-DSA.md

#DATA SHARING AGREEMENT

This AGREEMENT is made and entered into this ____ day of _____, 20__ by and between the {City}, acting by and through the {City Department}, whose principle office is located at {Address of City Department} and _____ (Company Name, Inc.) (herein after referred to as the "User") whose office is at _____(Company Address).

WHEREAS, {Specific obligations under Agreement}

WHEREAS, the City has installed sensors and detectors at certain locations, which are connected to the City's {Data Collection Center} located at {Data Collection Center Address}, allowing this facility to receive all sensor information at any time.

WHEREAS, {Goals of Agreement}

NOW THEREFORE in consideration of the mutual promises contained in the Agreement and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. The City represents that it maintains the operating system that allows the User to access specific data sets.

2. Unless otherwise agreed in a writing executed by authorized representatives of City and User, as between City and User, City shall own all right, title and interest in and to the Intellectual Property Rights in the Sensor Data.

3. The City and the User each agree that User shall have access to the signals from the sensors in a form which is accessible and can be utilized by User. The Cityspecifically reserves the right to make changes in the form and accessibility of said information as it sees fit without advance notice to User; provided that the City will use best efforts to provide User with as much prior notice as is practicable prior to any discontinuation of access to the sensor data.

> This is what we were thinking it would look like once assembled in CommonAccord.
